# Pediatric Therapy

You can get easy access to quality children's therapy — close to home.

## Does your child need help with:

- Pronouncing certain letters of the alphabet?
- Overcoming stuttering?
- Comprehending what is said?
- Other, more severe communication skills?
- Feeding?
- Using fingers to manipulate objects?

## Encompass is the place for your child — and for you!

Encompass, the premier children's organization in the Snoqualmie Valley, has launched a new program: **Encompass Pediatric Therapy**. We are conveniently located in the new **Encompass - North Bend Way Campus** at **301 West North Bend Way**.

- We offer comprehensive evaluations and treatment for children from birth to age 18 and we tailor treatment to most effectively meet each child's needs.
- In this positive, fun, nurturing environment, we encourage the child's parents and other relatives to take an active role in the treatment.
- We bill selected insurance plans and accept private payment from families for services not covered.

## Interested?

Please act now to make an appointment.

Call Encompass at **425.888.2777**

or e-mail [pediatric.therapy@encompassnw.org](mailto:pediatric.therapy@encompassnw.org).
